ABOUT ME

Junior data analyst with a dual background in digital communication and artificial intelligence, focused on turning data into actionable business decisions. I have just completed a Master's in Big Data and AI at CEU San Pablo University, with hands-on experience in Python, SQL and Power BI across academic and real-world projects. In my professional roles I bridge technical analysis and content strategy, using data and KPIs to optimise performance and reporting.

PROFESSIONAL EXPERIENCE

Marketing data analyst & strategist

Instituto Élan de Sexología · Madrid

Apr. 2025 – Present

- Monitor and analyse social media KPIs to optimise the content strategy in a sensitive medical niche.
- Translate complex medical data into high-performing digital formats using engagement metrics.
- Track audience retention and organic reach to ensure strategy efficiency and strong brand positioning.

Digital strategy & social media data analyst

Optisaz · Madrid

Jul. 2025 – May 2026

- Analyse audience data and social media metrics to segment targets and optimise the digital community.
- Monitor engagement KPIs to adapt organic content, driving consistent community growth and higher interaction rates.
- Translate online interaction data into executable plans that improve brand visibility and audience retention.

Junior social media data analyst & content creator

PZT by Posizionarte · Madrid

Nov. 2024 – Apr. 2025

- Extracted and analysed social media performance data across multiple client accounts.
- Built monthly performance reports with actionable insights on engagement, reach and growth.
- Optimised editorial calendars by identifying trends in historical data, improving overall digital presence.

EDUCATION & ACHIEVEMENTS

Master's in Big Data and Artificial Intelligence

CEU San Pablo University · Madrid

Sept. 2025 – Jun. 2026

- Completed. Selected for the elite "100 Global Leaders" talent programme.
- Technical focus: predictive modelling, machine learning, Python scripting and ETL processes.
- Capstone project: applying generative AI and predictive models for business strategy optimisation.

Bachelor's degree in Digital Communication

CEU San Pablo University · Madrid

Sept. 2017 – Jun. 2021

- Specialised in digital strategy, data-driven communication and multimedia content creation.
