About me

I am a junior data analyst with a dual background in communication and artificial intelligence. My specialty is transforming digital data into actionable business strategies. Currently I have completed a Master's in big data and AI, I have hands-on academic and project experience using Python, SQL, and Power BI. In my professional roles, I bridge the gap between technical data insights and digital content strategies by analyzing social media metrics to optimize performance.

Professional experience

Data analyst & head of social media

Thex | Murcia | September 2026 – Present

- Lead community management and end-to-end content creation, designing high-quality corporate assets and digital formats to establish a premium brand identity.
- Engineer data pipelines and automate publishing workflows, analyzing cross-platform KPIs to continuously optimize our content and digital strategy.
- Translate complex metrics into actionable insights, driving targeted traffic and engagement for key corporate initiatives like CEX Careers and the Kemet project.

Marketing data analyst & strategist (Part-time)

Instituto Élan de Sexología | Madrid | April 2025 – Present

- Monitor and analyze social media KPIs to optimize the content strategy in a sensitive medical niche.
- Use engagement metrics to translate complex medical data into high-performing digital formats.
- Track audience retention and organic reach to ensure strategy efficiency and establish strong brand positioning.

Digital strategy & social media data analyst (Part-time)

Optisaz | Madrid | July 2025 – May 2026

- Analyze audience data and social media metrics to segment targets and optimize the digital community.
- Monitor engagement KPIs to adapt organic content, achieving consistent community growth and higher interaction rates.
- Translate online interaction data into executable plans that improve brand visibility and audience retention.

Junior social media digital analyst and content creator

PZT by Posizionarte | Madrid | Nov. 2024 – April 2025

- Extracted and analyzed social media performance data across multiple client accounts.
- Developed monthly performance reports, providing actionable insights based on engagement, reach, and growth metrics.
- Optimized editorial calendars by identifying trends in historical data, significantly improving overall client digital presence.

Education and achievements

Master's in big data and artificial intelligence

CEU San Pablo University | Madrid | Sept. 2025 – June 2026

- Selected for the elite "100 Global Leaders" talent program.
- Technical focus: Predictive modeling, machine learning, Python scripting, and ETL processes.
- Capstone project: Applying generative AI models for business strategy optimization.

Bachelor's degree in digital communication

CEU San Pablo University | Madrid | Sept. 2017 – June 2021

- Specialized in digital strategy, data-driven communication, and multimedia content creation.
